**Policy Report:  
Telephone System Separation Project**

During the 2021-2025 Operating Budget and CIP process, the Commission approved \$113,000 for the separation of the City telephone system from the County telephone system. There's sufficient funding in CIP to cover the \$3,675.25 difference.

Staff recommends approving ISG Technologies for the telephone separation project in an amount not to exceed \$116,675.25.
