

From the Desk of Mayor Camalla Leonhard

As a native of Leavenworth, I am excited to serve my hometown community in the upcoming year.

With a focus on teamwork with my fellow commissioners and city staff, I will work hard to make the community even better. My many years in Leavenworth have allowed me to see the challenges that have come with changing times, new businesses, new housing developments, and new growth.

My goal is to build on the work that has already been done with a focus on infrastructure, including more street maintenance, improvements to the Wastewater Treatment Plant, and continued work on storm water projects. I would also like to pursue the creation of walking and biking trails for healthy activity and community togetherness. And I look forward to seeing already planned projects come to life including the splash pad at Hawthorn Park, restroom facilities at Stubby and Havens, and the beginning of the community's transportation system.

I also look forward to the continued implementation of the City's Comprehensive Plan 2030 that outlines the path for the next decade, including enhancements to the historic downtown district. City commissioners and staff encourage you to reach out with your suggestions and ideas on those efforts.

By working together, we will keep the City going strong from the founding in 1854 through the next 10 years and beyond.
